ID3BL-M	Meat
ID3BL-SSM	Shellfish

This range of cabinets is designed and manufactured by McAlpine Hussmann Tauranga

### Features

This 3rd generation ID3BL-F is a forced draft refrigerated display cabinet. Cooling is from low velocity forced draft air. This provides gentle cooling with low dehydration levels, resulting in longer product life.

The deck is angled for improved display and easier serving, and the cabinet features double glazed lift front glass. LED lights provided enhanced product illumination and longer lamp life with lower energy use.

Cabinet lengths are variable, and base frame heights can be altered on request. Base frames can be solid or pedestal style.

### Temperature Class

3M0

### Benefits

- Extended product life
- Energy cost reduction
- Temperature compliance (MEPS)
- Excellent product presentation
- Lighting optimisation
- Maximisation of floor space
- Less reflection from store lighting
- Easy cleaning and product loading from front
