Service Deli/Fish Display Cabinet

VLL727-BL

Features

This forced draft refrigerated display cabinet is usually set up for fish but may be used for deli or meat applications.

The bottom deck is sloped to assist display and the fixed boxed glass allows maximum product display and space for staff access.

The gentle forced draft air provides for low dehydration levels, resulting in longer product life.

Cabinet lengths are variable, and base frame heights can be altered on request.

Standard

- External painted steel
- Stainless steel internal panels
- Stainless steel pressure foamed tub
- Forced draft coils
- Solar thermometer
